

## Unsere VanEssa Schlafauflage - faltbar

- Made in Germany -

Our VanEssa mattress topper is made exclusively from outstanding quality materials and is therefore extremely comfortable to lie on.

It consists of a Viscotherm\* cold foam mixture and has very good adaptability to the body contours. adaptability to the contours of the body.

Slight unevenness, such as on a sofa bed, is very well compensated.

During the day/during the journey, it can be folded backwards so that it can be easily stowed away.

The mattress can be covered with a fitted sheet, which can be folded away when the sleeping system is being set up and folds away with the sleeping system and is easy to wash after use.

**Our Comfort sleeping pad is made from the following materials in accordance with the Ökotex standard**

- Cold foam/Viscotherm mix, edged with upholstery fleece
- High-quality mattress cover made of polyester, with zip fasteners
- All three mattress sections are joined together by the fabric cover.

The topper corresponds to firmness level 2 (density: 40-50).

The cover is washable (40°C gentle wash cycle recommended).

Depending on the vehicle model, our overlay is 3 or 4-piece.

(remaining space in the boot / position of the rear seats is decisive)

With our split sleeping systems, you receive two separate sleeping pads.

**Weight:** 10-12 kg

**Measurements:** Variable width and length, depending on sleeping system, height 10 cm

**Details:** 6 cm cold foam at the bottom, 3 cm viscose at the top, 1 cm upholstery fleece

\*Viscotherm:

The Viscotherm layer adapts to your body heat and the contours of your body, which ensures excellent point elasticity and therefore very good sleeping comfort.
